Gortschakoff Convalescent

ST PETERSBURG May 28—Prince G... ...ff has so far recovered from his illness as to be able to leave his bed

The Invitations Not Yet out

BERLIN May 28—Reports that invitations to the congress have already been dispatched to the powers are unfounded

Bismarck's Influence

Correspondents at Paris and Vienna say that the probabilities of Prince Bismarck acting largely in a conservative manner in bringing about the result without humiliation to Russia or risk to England

Austria's Motives

Austrian and Hungarian delegations will meet this evening when Count Andrassy will submit a written explanation of the government's motives for availing itself of the sixty millions credit It is expected he will state that Austria is prepared to take defensive and preventive measures

A Less Dangerous Look

LONDON May 28 Affairs at Constantinople began to look less dangerous The advance of Russian cavalry to Tirnjo with the Turks understood to be an attempt to seize Piergos with a view of commanding the road to Kavak, is now disavowed by Gen Todleben

An Indiscretion.

Gen Shouvaloff who ordered the occupation of Tirnjo is declared to have exceeded his authority, and committed an indiscretion

Withdrawal from Pirlujh.

The Russians have withdrawn from Pirnjo, and Gen Todleben is said to be exceedingly careful to prevent anything at this moment which would cause suspicion or create irritation The withdrawal from Pirnjo and news from European capitals have so reduced previous tension that little fear is now entertained of an accidental collision Both Russian and Turkish officers are indulging in pleasure excursions The work of preparation, fortifications is greatly relaxed

The Invitations to the Congress.

The invitations to the congress issued by Germany, state in effect that the congress will meet in Berlin to discuss the treaty of San Stefano

CONGRESSIONAL.

Senate.

WASHINGTON May 28

Hamlin reported a bill providing for payment of the award made by the fishery commission at Halifax under the treaty of Washington placed on the calendar

Hamlin also reported from the same committee a long written report accompanying the bill

Also a concurrent resolution that the views and recommendations embraced in the report of the senate committee of foreign relations touching the award made by the fishery commission at Halifax are hereby approved

The report of the committee of foreign relations above referred to in conclusion says And your committee further recommend that the executive department of the United States should be authorized to pay the award, if after correspondence with the government of Great Britain the president shall without further communication with congress, deem that such payment shall be demanded by the honor and good faith of the nation, and if in pursuance of that conclusion an award shall be paid that the president shall as soon as may be thereafter, lay the correspondence with the British government relating thereto before congress

Morrill reported favorably on the house bill to authorize the secretary of the treasury to constitute superintendents of mints or assayers in the assay offices assistant treasurers of the United States without additional compensation to receive gold coin and bullion on deposit for the purpose provided in section 3511 of the revised statutes

At the conclusion of the morning hour consideration was resumed of the house bill to forbid further retirement of U S legal tender notes

Bayard submitted an amendment to the clause providing for reissue of said notes redeemed or received into the treasury under any law as follows

Provided That said notes when reissued shall be receivable for all dues to the United States except ing duties on imports and not be otherwise a legal tender

House.

Shelley reported back from the committee on roads and canals senate bill for the construction of a railroad from Bismarck to the Black Hills but on reading of the bill it appeared it makes a grant of land for railroad stations which made it liable to a point of order that it must first be considered in committee of the whole and that point being made the bill was withdrawn

On motion of Wood the senate amendments to the house bill for free entry of articles exported for exhibition by societies established for the encouragement of arts and sciences, were concurred in and the bill passed

The bill for holding an election for representatives in California to the forty sixth congress on the first Wednesday of September 18 passed

The house voted to non-concur in the army appropriation bill All items which had been increased on the basis of an army force of 25 000 were restored to the original amounts on the basis of 20 000 by a vote of yeas 130 nays 115

The amendment adopted in committee of the whole transferring the Indian bureau from the interior to the war department was agreed to

House amendment, fixing the number of cavalry regiments at eight and of the infantry at eighteen was concurred in also an amendment fixing the maximum of privates in a cavalry company at 12

Amendments striking out the section reorganizing the adjutant general's department and inspector general's department were non concurred in and these sections were restored to the bill The new section, number 25, in regard to the retirement of officers which was substituted last Saturday for other sections that were struck out on points of order were retained The amendment transferring control of the Indians to the war department was agreed to—yeas 120, nays 115

MR. STITES AND THE PACIFIC COAST SERIES

ALBANY May 28 1878

TO THE EDITOR OF THE OREGONIAN

In your issue of the 27th inst some one writing over the *nom de plume* of Veritas not content with hurling the shafts of his invective against (as he terms him) the paid attorney of Bancroft & Co, tries to leave the impression upon your readers that Hon T J Stites the Democratic nominee for superintendent of public instruction was one of the number who advocated the introduction of the "Pacific Coast Series into our public schools

This insinuation was made either through gross ignorance as to the facts in the case, or intentionally, to place Mr Stites in a false position in the eyes of the people of the state The last is the most natural conclusion, since your correspondent claims to base all his information on very reliable sources. In the zeal he displays in sounding the praises of Prof Powell he evidently forgets the *most reliable source* of information attainable and contents himself with hearsay evidence alone

This indeed seems a little strange—not to say blameworthy—in one who pretends to feel such a deep interest in the educational affairs of the state Why did not Veritas consult the records of the superintendent of public instruction at Salem before he entered upon the discussion of a subject of such importance to the people? Had he put himself to that trouble, he would have found—what is plain to the most casual reader—that the heading—that at the time the law was passed introducing the Pacific Coast Series into our schools Mr. Stites was superintendent of Linn county; that the blank sent him by the superintendent of public instruction to be filled out with the series of books he preferred and desired, therefore made mention of the Pacific Coast Series' but Mr Stites (to to speak) voted unanimously against their introduction and use This a matter of record, but Veritas" in his blind zeal or gross ignorance forgets the fact and trusts merely to the information of others.

Again we state for the edification of Veritas that Mr Stites voted against the whole Pacific Coast Series when the question came before the superintendents of the several counties as to the qualifications of Mr Stites for the office to which he has been nominated we have nothing to say—they speak for themselves in plainer and more glowing terms than we can command the common success he achieved as a principal and teacher and the universal satisfaction he gave the people of Linn county both as teacher and as school superintendent for many years are a sufficient guarantee of his ability to accomplish and promote the educational interests of the state

In conclusion we would suggest to Veritas the propriety of examining the records in future before he rushes into print with such distorted information in matters of public interest

THE NEGRO IN GEORGIA.

HIS INCREASING PROSPERITY—HE PAYS TAXES AND INDUSTRIOUS, HONEST AND GOES TO SCHOOL

[From the Washington Post]

Are the negroes really satisfied under Democratic rule in Georgia? asked a *Post* reporter of Col Hartridge the rising young member of congress from that state

I can give you just one fact replied the colonel, that will convince you that they are satisfied Prior to Democratic rule in the state the colored population returned no taxes at all Now the report of the comptroller general shows that they pay taxes on over $3 000,000 worth of real estate alone. In Savannah the colored people pay taxes on over $300 000 worth of real estate, and the same may be said of the other cities of the state All this property has been acquired under Democratic rule, and that is why they vote our ticket"

"What do they pay on personal property colonel?"

"I don't remember the figures, but it is a very handsome proportion to their real estate. In fact, the colored people of Georgia, in proportion to the population pay their fair share of taxes And all this is the work of seven or eight years since the Democrats got control of the state"

"Don't they seem inclined to flock to the cities and towns"

"Not now Those who were used to farm work are better satisfied in the country where they are rapidly acquiring valuable property and are steadily contributing to the material wealth and prosperity of the state

How do the two races agree colonel?"

"The colored people live in perfect accord with their white neighbors They are orderly well-behaved, respected and respectable"

Do the Democrats give the negro's any official positions?"

Yes The Democrats are perfectly willing to put them in public positions that their capacity, education and ability fit them for I frequently receive applications from colored men for such positions as mail agents route agents, etc and in very many instances these applications are indorsed by the leading white citizens of our state. The white citizens prefer to have good colored men in such offices as they can fill I represent one of the largest negro districts in Georgia, and am familiar with these facts"

Well colonel do you Democrats supply the colored people with schools?"

The public school facilities have been increased and enlarged under Democratic rule just in the same proportion that the taxes on property in the hands of the colored race have increased—from nothing to one of the finest and most liberal systems in the country By the constitution of Georgia a poll tax of $1 a head is levied and it all goes to the common school fund In addition to that the rent of the Atlantic & Great Western railway $2) 000 a year goes to the school fund In addition to that the state of Georgia gives $8 000 a year out of the state treasury to Howard college a fine school in Atlanta exclusively for the colored people

The colored schools then colonel are well provided for

"Just the same as the white schools The colored people have their schools separate and they have some of the finest in the state Two of the finest schools in Savannah are those of the colored citizens and they are not my among the finest but are well attended

Do the blacks seem inclined to acquire education?

Yes they realize the importance of it and the state that are to old now are striving earnestly to educate their children"

How do the whites feel on the subject of educating the negroes

The universal opinion among the white people is that the negroes ought to be educated up to the standard of virtue and intelligence, that they may appreciate their position and be fully prepared to perform their duties properly and intelligently

ANSWER TO MR HURLEY'S CARD

SALEM OREGON May 27 1878

TO THE EDITOR OF THE OREGONIAN

Mr Hurley's card in answer to my letter was handed me this morning I am glad he has undertaken to defend himself through the columns of an independent journal I did not write a political conflict but one for truth and honesty and that I have published only *facts* I will now abundantly substantiate Permit me to repeat I never published my letter because Mr Hurley belongs to the Republican party, but because in my humble judgment he is dishonest as an attorney and unworthy the confidence of honest men

Mr Hurley in his answer says I pronounce his whole letter a tissue of unqualified unmitigated falsehood and the author of it a liar and villifier

As stated in my letter I purchased the farm in 1876 and recorded my *deed* in Yamhill county I never heard of the *deed* in my *land* until the sheriff came to my house the 15th I had been in peaceful possession for fifteen years Jasper Matheny was the sheriff and I was to be served the papers upon me said Mr Miller this is a blackmailing affair gotten up by Hurley to rob you of land which you honestly bought and paid for as I know

I let me say Jasper Matheny the sheriff, was living near me when I bought the farm and was one of the *witnesses* to the deed and hence knew all about the transaction I opened and read the *papers were from me* by the sheriff in which this man *Hurley appeared as attorney* Now if he (Hurley) was not the attorney, why did he appear as such in all the papers connected with this transaction Further when I went to Lafayette in company with my attorney C G Gault we went to *Mr Hurley* and told him that Adam Matheny and his wife had executed a new deed Mr Hurley went with us to the clerk's office where I testified that I had been in peaceful possession for fifteen years upon which the clerk recorded my *new deed* and so ended the matter

And yet this man Hurley says he never had any thing to do with the matter and that I am a falsifier Of who has *lied* I am willing the people my judge

But as Mr Hurley has resorted to the statements of those who really knew nothing about the matter I will resort to the statements of *those who knew all about it* And I will commence with what Mr Hurley said to the county judge Yamhill's new man after I had had my new deed recorded Now what did he say to this judge? He said "This is the last suit of this kind I will commence as I did this one Next time I will have a *quit claim deed* and then I will get my money" Now if any one living or dead knows the bottom facts in this matter that man is *I am Matheny* of whom I bought the farm The following is Mr Adam Matheny's statement under oath

State of Oregon county of Marion—

I Adam Matheny being duly sworn say that I reside at present in Salem that I am the husband of Harriet Matheny in whose name an action was commenced against William Miller in Yamhill county some time ago to recover from him the west half of the south half of donation claim No 60 near Wheatland in said county Mr William Miller purchased said land of me and my said wife on the 9th day of June 1876 and paid us therefor all the land was worth and all we asked for it We made a deed to him for said land on the 2nd day of June 1876 and we supposed his title was good and perfect in every respect as we intended it should be. Several years ago, when we resided in Benton county a letter came to us informing us that Mr Miller's title was defective because the justice of the peace failed to certify my wife was examined separate and apart from me This was the first intimation that we had that there was any defect in Mr Miller's title Mr Miller paid my wife in cash the sum of $400 and we made him another deed for the land The statement made by Mr Hurley that Mr Miller had defrauded my wife out of the land is erroneous and false in every particular

Mr Miller's conduct in purchasing and paying for said land was in all respects upright and honorable ADAM MATHENY

Subscribed and sworn to before me this 24th day of May 1878 ROBERT H WILSON
Notary Public Oregon

Now I am content for the honest citizens of this country to decide whether Mr Hurley or myself have lied in this matter

It may be true that Curry was in partnership with Hurley but it must be remembered that Hurley appeared as attorney and that he acted as such in the matter and his statement to the judge I am a bill county is evidence conclusive that he was

If disposed I might state several other cases in which Hurley has played a much darker part than in mine If what honorable ladies and gentlemen state be even one tenth true but I do not desire to do Mr Hurley a wrong, but to publish only the part he played in his attempt to rob me of land for which I had paid WILLIAM MILLER.

Matters at Cassiar.

[From the Seattle Tribune

A greater number of miners than ever will be at work in the Cassiar country this year and they are of the kind who will do more and make less fuss over it There will be about eight hundred Chinese and four or five hundred white men and they will spread over a much larger surface of country The whites will work the better claims, prospect and do the business of the country, while the Chinese labor in the abandoned gulches scooping out the little gold left and making three or four dollars a day to the man A great many winter there and if the diggings hold out more will hereafter, the time and expense of coming to Victoria the Sound and Portland—twelve or fifteen hundred miles and return—being too great for the good got out of the trip Though cold the thermometer ranging from 0 to 50 degrees below zero the climate is dry and but little discomfort and difficulty are experienced in wintering there The boats on the Stikeen have been charging very high prices so far and have experienced a strong opposition from Indians with canoes in consequence White men can be picked to make this season from $5 to $10 a day in the diggings averaging at about $7 or $8

Colored Democracy.

Gov Hampton of South Carolina has managed to rope a great many negroes into the Democ Confed. party in his state Says an exchange

The colored Democratic voter must be recognized as a factor in South Carolina politics The Democrats of Barnwell county held their convention on Monday, and no less than eight of the thirty-four local clubs represented were composed of colored voters 17 of the 34 delegates being negroes Together the clubs of both colors have enrolled over half the voters in the county, and regard the success of the Democrats certain in advance Of course the convention indorsed Gov Hampton as everybody in South Carolina is doing nowadays

Rifle Balls Seen in Flight.

[From the Rochester Express.]

The fact that human eyes with the aid of a field glass have seen rifle bullets, during their flight from the muzzle of the rifle to the point at which they were aimed, has been published, we believe several times, but we have never seen, to our knowledge, the announcement that they could be seen with the naked eye Yet it is a well attested fact that rifle balls were seen in their flight by several gentlemen without the aid of glasses or anything at the rifle range north of the city, one day last week. A high wind was blowing and showers were frequent—in fact it rained almost constantly, When the spectators stood at one side of the shooter they could only follow the ball to the highest point of the arc which it described, but when they stood immediately behind the shooter (the laying down and they standing up) they could follow the bullet from a point about ten feet from the muzzle, all the way to the target, or whatever object it struck One gentleman told the shooter immediately after he had fired that he had shot too much to the right, and the signal of the marker a minute or two afterward confirmed exactly what he had said The balls were seen while the shooters were firing at 500 yards distance The rifles were of the heavy military kind which carry a large bullet Those who saw the bullets on their flight say that the arc described by them is immense at that distance and that they also appear to curve to the right as well as up and down

EXPLANATION BY TREASURER BROWN

SALEM, May 28, 1878

TO THE EDITOR OF THE OREGONIAN

In reference to the release of a portion of the property mortgaged by Gov Grover to the school fund I would state at the time I asked Col Kelly to deny the statement, I knew that no release could have been made without a consideration I had forgotten the transaction the money being paid to William Hackleman and a receipt given for the payment of five hundred dollars, principal dated 24 July, 1876 This is the answer, to the charge that I had released the property without the payment of money Knowing that the rule was to require a payment before release could be given I was led into the error of making the statement that the mortgage remained as it was executed.

There were two blocks mortgaged originally and only two lots released

By giving space for this you will oblige me Respectfully yours A H BROWN

Those Great War Claims.

[From the Salem Mercury.]

Now that the subject of southern claims has become an "issue" it may be well to call attention to the fact that most of such claims which have been passed upon and allowed during the last ten years have been advocated by carpet-bag Radicals from the south The largest single southern claim on the senate calendar at this time is reported by Mitchell of Oregon

An erican Telephone and District Telegraph Company,
OF PORTLAND.
Central Office with Western Union Telegraph Company, No. 3 First St.

THIS COMPANY COMBINES THE PRIVILEGES and facilities of the American Speaking Telephone Co and the American District Telegraph System is organized and managed exclusively by Resident Telegraphers and Electricians, and is now ready for business.

In the Telephone Department,

We construct independent business lines fully equipped (with telephones and Signal Bells) and maintain them in working order

We also have the Central Office System, (now working so successfully in S F) for use by merchants and others, the principle of which will be explained to applicants. This system guarantees perfect secrecy to the parties using the lines and is managed by professional telegraphers whose obligations and the training of years render them perfectly safe to be trusted in this important matter

JUDGMENT ON THE RAILROAD QUESTION

From very many quarters during several months there have been intimations and suggestions that Mitchell's course on the railroad question must have been taken in the interest of the Union and Central Pacific In his latest bored bancombe on the railroad bill he complained of the injustice of this impression or supposition and undertook with a show of warmth and indignation to repel it He declared that he did not regard the propositions he had been insisting upon as materially embarrassing to the company and that he had not wished to impose onerous conditions upon it

These are fair words They would justly be deemed conclusive if the actions of the speaker corresponded with them If Mr Mitchell speaks with sincerity it is a great misfortune to him that his course has been such as to create a profound suspicion not only in Oregon but wherever this subject has received attention that he has been secretly trying to embarrass undermine and defeat the Northern Pacific in the interest of the Union and Central Pacific companies If he has not been his course nevertheless is precisely what was to have been expected of one who had such object in view If he has not been working to defeat the Northern Pacific he has been extremely injudicious and unlucky in pursuing a course which has convinced almost everybody that such is the fact.

Nor is the impression relieved by the statement that he does not consider the conditions he has made as materially embarrassing to the company This is even greater infirmity of judgment than in the other case There is universal opinion to the contrary that is to say, the only exceptions are those persons who are led to think otherwise for reasons of a political or partisan character General opinion throughout Oregon deems the conditions onerous, oppressive and fatal The eastern press, which during several months has had much to say on the same subject, has given utterance to similar opinion The whole drift of the debate in the senate indicated a very general impression in that body that the company was being placed under such restrictions as would prove injurious if not fatal to the enterprise It was only because the bill had come in order from the regular committee, with a statement (which however, was not correct) that it would be acceptable to the company, that it was considered at all. And even then many senators who voted for it expressed doubts as to its utility No senator except Mitchell insisted on these encumbrances, and it was his position at the head of a committee, a position which should have given an advantage to Oregon instead of being turned against her interests that gave him power over the bill. Except Mitchell and those who are bound to echo his opinions there cannot be another person in the world who does not consider the complicated provisions of this bill, with its fatal restrictions as to sale of lands, as "materially embarrassing to the company. By the company itself the conditions are held to be so embarrassing that there is positive refusal to accept or to think of accepting them

It would be interesting to know what conditions Mitchell would consider "materially embarrassing," if these are not.

MONEY POWER OF ENGLAND

England is the money power of the world, and, notw thstanding the magnitude of her debt, her financial resources for war are unequalled. A paper has recently been laid before the Statistical Society of England by Mr Griffen, prepared for the purpose of showing the financial strength of the nation if called upon to go to war with Russia on the Eastern question. Above two centuries ago it was observed by Milton that war is moved by its two main nerves, iron and gold, and it is even more so now In England the age of gold and the age of iron meet each other, and two such forces conjoined, backed by the native resolution and endurance of a people make the might of England a thing which any power would dread to encounter. Russia might well hesitate to grapple with such tremendous sinews. In the paper presented, above mentioned, the wealth of the realm including the recent accumulations of capital is considered carefully and at length, and with results which are said to have startled even those Englishmen who had thought themselves most familiar with the financial history and condition of their country For example, Mr. Griffen finds that in the ten years prior to 1875 the capital of the country was increased by the enormous sum of £2,400,000,000, or nearly twelve thousand millions of dollars The capital of the empire in 1865 was £6,100,000,000 In 1875 it was £8,500,000,000 Thus it will be seen that England has been adding to her tremendous wealth at the rate of two hundred and forty million pounds sterling a year And whereas the gross assessed income of Great Britain at the beginning of the century when she was carrying on her wars with Napoleon was but 115 millions sterling, and in 1835, at the time of the Crimean war, it was but 308 millions it had risen in 1865 to 396 millions, and in 1875 to 571 millions. Mr. Griffen well remarks that these figures are bewildering in their effects, and nothing in the history and study of political economy is more important than the investigation of the causes which have brought about such colossal results The bearing upon England's power of offensive warfare which wealth so enormous would give her can hardly be estimated Even the British national debt, great as it is, in proportion to the value of British capital is but a small matter. The writer referred to says "More than ever now money is the essential nerve of war, and it surely behooves an empire such as Russia, already almost at the end of her disposable revenues, to think more than twice before she engages herself seriously in a war of an essentially vague character, upon issues equally vast and undefined with a power which during the single decade from 1865 to 1875 has added to its wealth enough to enable its people to pay their whole existing national debt three times over and yet remain as rich individually as they were ten years ago"

WHO MAY VOTE.

The usual inquiry as to qualifications of voters is being made Many are not clear on the subject and seek information They want to know the conditions on which they may vote Six months residence in Oregon prior to this election is necessary Persons of foreign birth, in addition to the six months residence must have declared their intention to become citizens of the United States one year preceding this election conformably with the laws on the subject of naturalization To entitle one to vote for county officials and members of the legislature he must have been a resident of the county for the last ninety days preceding the election and must vote in the precinct in which he resides If however one has resided in good faith in a county ninety days next preceding the election but has no fixed residence or domicil in any particular precinct therein he may vote in any particular precinct in which he finds himself on the day of election It is perhaps unnecessary to go further into this subject since the other qualifications and conditions required by law are known to every one Judges of election will find general instructions on pages 968 and 969 of the Oregon code a copy of which should be had at every polling place for ready reference

An iron decoration rules the Democratic congressional caucus It has caused those to loom in consequence moderate and in proportion as it forced the adoption of the Potter resolution a short time ago Without caucus these wrongs and follies would be impossible There are many Democrats in the house who think the army should not be reduced but they are driven by congress to sanction and assist in an act against their judgment It is a pitiful thing to see men in such utter bondage to a zeal to party

The way to get a railroad would be to work for all the aid that could be had for it The way not to get it is to saddle it with amendments restrictions and conditions which forbid success Since this last policy has been followed rather than the first the inevitable result is fully apparent

It is Mitchell's ticket of course but there are not a few who suspect that it is so constituted that if Mitchell can't succeed Dolph is to have the remainder or reversion

THE REPUBLICAN SPEAKERS AT NEW MARKET THEATER

PORTLAND May 8 1878

TO THE EDITOR OF THE OREGONIAN

Last night's speaking exercises have awakened reflections in the mind of at least one Oregonian one or two of which we herewith submit. As furnishing statements exposing the maladministration of the Democratic retrenchment party the speakers fully sustained their reputation and doubtless affected votes but when they came to the work of berating the Oregon Steam Navigation Company for the purpose of bolstering up the cause of Senator Mitchell obliviousness and poor logic were sadly conspicuous Nor could the noise of a few over heated claquers who acted their part enthusiastically drive away from the minds of the intelligent and reflecting hearers present regrets bordering on indignation that such should be had to such one-sided arguments by Republicans of such promise as Mr Mallory and Hon J N Dolph

Both speakers *seemed* (of course they were not) utterly oblivious of the fact that through the lack of railroad facilities Oregon has been and bids fair to be through the efforts of Mr Mitchell, a mere dependency to San Francisco and a victim to that greatest of all monopolies the Central Pacific Railroad

Both speakers became entangled in the meshes of the vicious circle while reasoning against the Oregon Steam Navigation Company They declared that the Republican party did not exist *for* men but was *about* men and then almost in the same breath leveled upon the solid suffrages of the party for Mitchell and unblushingly told Republicans who differed with them as to the propriety of electing a packed Mitchell legislature that they might eat crow if they wanted to that they were sore heads, and they might growl if they wanted to Just as though Oregon had not good reason to growl in the prospect of being deprived of railroad communication from the Willamette Valley to New York through somebody's subserviency at Washington to the Central Pacific Railroad monopoly

Obliviousness to facts and poor logic may serve those who desire to bring odium upon the Oregon Steam Navigation Co., but will never help our state to railroad facilities or release us from our dependence upon California and the Central Pacific Railroad.

Reduced to a simple proposition the question seems to be this shall we vote for legislators who will send a senator to Washington that will advance the railroad interests of Oregon or shall we vote as those command us whose chief argument last night seemed to be hostility to the Oregon Steam Navigation Company?

WEDNESDAY MORNING MAY 1878

CITY.

DECORATION DAY—The beautiful ceremo nies of decorating the graves of dead soldiers will take place throughout the country to morrow, and everywhere preparations are being made to observe the custom in the most complete manner The committees in charge of the arrangements in this city have all matters connected with the exercises of the day in the best possible shape and we doubt not the ceremonies will be beautiful and touching Surely attended by the citizens generally The procession will form at the hall corner of Alder and Third streets at 10 o clock and after marching through some of the principal streets of the city will cross the river to Lone Fir Cemetery, where the decoration of the last resting place of the dead who once served their country in the army will take place, with the usual speeches addresses etc Should the weather be pleasant a very large crowd of people will probably turn out to witness these interesting exercises

ACCIDENTALLY SHOT—From the Astoria paper it is learned that on the 20th inst Mr Davenport, first officer of the *Julia Thing*, met with a very painful mishap at sea which is very likely to cost him a finger of the left hand. He was sating near the stern of the boat, while with the right he tossed small revolver, while with the right he tossed the bird the latter—small bits of fat meat He had just thrown a piece, and reaching for the next one, cocked it in his hand but as he did so the hammer must was greasy it slipped off the hammer and the ball from a chamber of the revolver passed through the knuckle joint of the first finger causing a dangerously painful wound The surgeon says he will be able to leave for San Francisco on the steamer Since writing the above Mr Davenport has submitted to amputation of the finger, which was very nicely performed.

SPEAKING AT ORO FINO—Hon John F Miller and J. M. Gearin Esq Republican and Democratic candidates for prosecuting attorney of this judicial district jointly discussed the political issues of the day last evening, at Oro Fino hall A large crowd was present, the political friends of the two gentlemen being about equally divided The discussion, though quite warm and sharply contested, was free from personalities A good deal of pleasant badinage and raillery was indulged in by the contestants but the discussion was conducted in a gentlemanly manner and enjoyed an exemption from offensive personalities and partisan bitterness Much enthusiasm prevailed, and when the speakers made a point or a telling hit the respective friends never failed to bring down the house.

RACING CONTEMPLATED—We understand that it is the intention of S. G Reed and W S Ladd who are the owners of the trotting stallions "Rarus," and the imported Clydesdale stallions, "Young Marquis," and Brunette," to offer special premiums for the get of these stallions at the state fair to be held in October next at Salem. The premiums for 2 year old "Rarus-colts will amount to $150 in all, viz: $100 1st, best 2 in 3, and divided as follows, $60 2d $40, 3d, $25, 4th, $15 Mile heats. For 2 year old Clydesdales, by Young Marquis" 1st, $25, 2d, $15, with a premium for 2 year olds, sired by "Brutus"

FIRE ASSISTANCE—Yesterday forenoon after the fire at the Exchange Hotel had been extinguished, Chief Morgan received a telegram from the fire department at Astoria offering him if he required any assistance that they would come up and help. Consider ing the fact that it would take about seven hours to reach Portland from that city such assistance, if it were necessary, we fear would arrive rather late. But the citizens of Portland appreciate the motives which prompted the generous offer, and are willing to accept it will for the deed "

A PLEASANT JOKE FOR THE PARTY—It was a pretty good joke yesterday, for those who admire a practical joke party, and like to see the "free and easy" in its name, to observe Frank Dunsmuir, the Ganymede of the "headquarters room" at the "true Republicans, in the Ankeny building, starting out with his self-satisfied gait, for Joe Taylor's to get his morning drink. The new supply of enthusiasm and confidence that must have carried up the courage of the party "to the highest pitch

TEAMSTERS AND RESTRICTIONS.—Teamsters and express and truck drivers, appear not to be aware that there is an ordinance against driving their teams across hose stretched along the streets in case of a fire. There had been general complaint against this practice, and very properly the council passed an ordinance to that effect, but yesterday there were several instances of violation of it. Ordinary observation would teach them that great damage is likely to result from the practice

PROPERTY FOR SALE.—Next Saturday Messrs. Oscar Kilbourn, by order of the Sheriff, will sell on streets and public property at the court house, at public auction the east 30 feet of lot 4 in block No. 13, in Portland situate on the north side of Yamhill street, between Second and Third streets, to the highest bidder for cash, sale to be made subject to the confirmation by the common council of the city of Portland as provided by Ordinance No. 2,16".

A RAILROAD STORE.—The *Telegram* learns that a store car, which passed over this section of the country yesterday at a little past noon, was loaded with strawberries and fruit from Portland fruit men that the cherries were large and came in "packing" stripping a seal of young cherries on the tree and completely demoralizing which were approaching

PUBLIC DISCUSSION—Col W. H Effinger and Hon Kelly will address the citizens of Albany (Wednesday) evening at Oro These gentlemen will give a general view of the railroad situation Both are thoroughly informed in relation to the matters to discussed, and very interesting and instructive addresses may be expected An invitation is extended to the public

ENTERTAINMENT.—As usual the audience room of the basement of the Congregational church, was well filled last evening The programme was a good one and those participating executed their parts with credit. The usual supply of ice cream and strawberries were offered and readily disposed of The refreshments were quite satisfactory

EXCURSION.—The O. S N Co have made a very low excursion rate to tourists. The steamers *Wasco* and *Mountain Queen* on the Dalles route, offer excellent facilities for excursion parties. Those desiring a pleasant trip at moderate rates should note the announcement elsewhere

SERVICE NOT SUNDAY.—In the account of the commencement exercises, at Pacific University, the types made us say that Raleigh Wasson would deliver an address before the Philomathean Literary society on Sunday June 2d Instead the address will be delivered on Tuesday evening

METHODIST MINISTERS.—It is stated that Rev Mr Atkinson, at present in Salem, will be in charge of the Episcopal church of the diocese at Portland, made vacant by the intended visit of Rev T A Hyland to the Atlantic states Divine service was conducted on Sunday last by Rev Mr Atkinson

I. O. F.—There will be a meeting at the Odd Fellows Hall this evening, when all those who have signified their intention of participating in the Decoration Day ceremonies will please be in attendance

SPECIAL RAILROAD EXCURSION.—The children of the Albany, and at all other points offer a grand opportunity to visit Portland next Tuesday next, June 1st, as the excursion train will sweep through from Eugene City to Portland. All persons must secure tickets before going on board. All children half fare

Go for anything eatable and you will get it at Barnes', Central Market

DISASTROUS CONFLAGRATION.

PARTIAL DESTRUCTION OF THE ANKENY EXCHANGE AND OTHER BUILDINGS BURNED

About 1 minutes to 6 o'clock yesterday morning fire was discovered in the rear of the American Exchange Hotel and soon after an alarm was sounded Promptly the fire department responded and at which a few minutes after the bell tapped the first station Three of the companies arrived at the fire about the same time Nos 1 and 2 with which company is attached to the engine house on Ankeny street, and Chief Engineer Smith with No 1 hook and ladder truck, No 1 being added to leave the position open Hose Carriage No 1 was manned by the Chief Marshal and Assistant Engineers and Foreman of No 1 hook and ladder truck, certainly deserve the highest praise for the energetic and successful manner in which they handled the fire

Notwithstanding the great rapidity with which the fire department responded to the alarm the fire had spread with great rapidity and the flames were fully sixty feet high when their work was commenced Before the water was thrown on the building But little furniture was saved from the rooms on the first floor of the building the flames having gained such headway before the firemen reached the scene

Much difficulty was experienced in getting at the fire owing to the narrow pass of the building between it and the river which prevented the use of the hose from that quarter A good portion of the building was also saved by the prompt and efficient manner in which the firemen worked

While the fire was at its height one of the inmates of the hotel—a woman—was aroused from her morning slumbers and notified that the building was in flames She became partly paralyzed stricken and imagining that her life was in jeopardy she rushed out of the room and along the hall until the front balcony was reached Without pausing to think of consequences the woman began to clamber over the low balustrade preparatory to leaping to the sidewalk below Fortunately her purpose was timely discovered by one of the firemen who rushed forward and caught hold of the frightened woman drew her back She struggled to free herself but was held fast until she was made to understand that there was no danger and the necessity for incurring the risk of breaking her neck

Notwithstanding the great rapidity with which the fire department responded to the alarm the fire had spread with great rapidity and the flames were fully sixty feet high when their work was commenced Before the water was thrown on the building But little furniture was saved from the rooms on the first floor of the building the flames having gained such headway before the firemen reached the scene

Much difficulty was experienced in getting at the fire owing to the narrow pass of the building between it and the river which prevented the use of the hose from that quarter A good portion of the building was also saved by the prompt and efficient manner in which the firemen worked

While the fire was at its height one of the inmates of the hotel—a woman—was aroused from her morning slumbers and notified that the building was in flames She became partly paralyzed stricken and imagining that her life was in jeopardy she rushed out of the room and along the hall until the front balcony was reached Without pausing to think of consequences the woman began to clamber over the low balustrade preparatory to leaping to the sidewalk below Fortunately her purpose was timely discovered by one of the firemen who rushed forward and caught hold of the frightened woman drew her back She struggled to free herself but was held fast until she was made to understand that there was no danger and the necessity for incurring the risk of breaking her neck

Gold in New York 100¼

Legal tenders in Portland—buying 99 , selling 99

Silver coin 2@2 ½ per cent. discount

Our quotations show another advance in the gold premium in New York but so far the local market is unaffected. Owing to the limited amount of legal tender notes in circulation here silver coin remains at the usual discount of 2@2½ per cent, but this is only reckoned in large transactions. Hence the wholesale merchants are directly unaffected by it while the retailer and the consumer have to discount and inconvenience. The consumer have to discount and inconvenience. The latter named classes would therefore find no great last named classes would therefore find no great reason to complain if the bill raised the legal tender power of silver to $20 instead of $5 as a present

A San Francisco exchange thinks the government has made a great mistake in proposing the coinage of the half dimes to further the use of the five cent nickel pieces, and says

The people of this coast have time and again repudiated the nickel, and they are none the less opposed to it now All our street railroad fares are fixed at five cents and many articles of daily consumption are sold at that price by retail So great is the scarcity that the newsboys purchase car tickets and use them for making change with their customers. Dimes are also becoming rare and both of these coins are greatly needed here by people of all classes.

Subsidiary silver coins are said to be largely in excess of the fractional paper currency which they are intended to supplant. These small coins, like the subsidiary money of other countries are made of debased silver as a safeguard against exportation, but, unlike the just legislation of other countries, ours make no provision for its redemption The consequence is that when its amount becomes excessive large sections of the business community suffer Those whose business is mainly carried on in small changes suffer largely from the discount on small silver coins. As in point all newspaper publishers, all street car companies grocers butchers, and retail dealers generally suffer much from the use of this description of debased currency for which no provision by redemption in legal tender money is made The small silver coins being a legal tender up to the amount of five dollars nobody can refuse them in petty transactions but when the receivers come to deposit them in a bank they must submit to a heavy discount There ought to be in this country as there is in other countries, a law requiring the government to redeem the subsidiary currency in the regular money of the country; which is the best method of reducing its amount when it becomes excessive If it were thus made redeemable in sums of fifty dollars or a hundred dollars the banks would receive it from their customers at par and the business community would not suffer as it does a present.

Domestic Produce.

The general tendency of the wheat markets both at home and abroad, during the past few days has been downward, and $1 75 is now perhaps about the best that shippers would offer Receipts are very light, being mostly made up of odds and ends picked up here and there throughout the country and generally sold to millers to fill out their wants until the new crop comes in, Flour shares somewhat in the weaker feeling manifested by the wheat market, but the restricted supplies have so far prevented any important decline in quotations Oats are in rather better request, and in some cases as high as 37½ cts per bushel has lately been paid Prices for dried fruits are better and the supply diminished Bacon of all kinds nearly is in excess of the demand, and shippers find no encouragement as the San Francisco market is well supplied from the East at prices below the demands of holders in this state Sales are now except for enough to furnish the local trade which is moderately active.

Eggs have declined to 18 cents and are weak at that figure. Potatoes are unchanged The wool trade continues dull on account of the wide difference between the views of buyers Considerable quantities are coming to hand a great portion of which is shipped to the San Francisco market. Quotations here range from 18@22 cents per pound with a number of buyers in the market, but no such competition exists as to lead them to pay beyond the figures named except for an occasional lot of unusually superior quality

DR. P. A. M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and how to maintain them. He has so warned them against the ills that would be likely to produce disease in that comprehensive language. But there he does not stop, crushed and broken down by disease and pain and physically bankrupt restored them to health and happiness for it is well understood that the health there can be no happiness

DR BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis and all diseases of the throat and lungs by a entirely new system of his own. Himself a victim of the deadly and terrible drug system of treating these diseases he has made a world wide reputation by his astonishing success not only on this coast but throughout the whole United States. Cases of the stomach, bowels, liver and kidneys will find in Dr Brenan's treatment a sure and speedy cure. Blood and skin he has been master of and never fails to give relief at once and permanently cures the case if the same is applied in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for the great professional success.

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to cast them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on the door

Office, 63 First street, over McCormick's Franklin Bookstore
